

Supporting Tobacco-Related Ongoing Education and Research (STRONGER) Scholar Program

POTENTIAL MENTOR RATING FORM

Instructions: Using the information on the mentor tab of the STRONGER Scholars website and other information you may have access to (e.g., web searches, published papers), please rank order all potentially compatible mentors in the list below, starting with 1= *Most Preferred* and numbering sequentially thereafter based on your interest in working with them on a mentored research project in their area.

- If you do not wish to be paired with a mentor listed below under any circumstances, write ‘OMIT’ next to their name and do not include them in your numerical ranking.
- There are also options for “write in” mentors who work at MD Anderson Cancer but who do not appear on our website, recognizing that we are always hiring great new faculty members that you may find online.

We cannot guarantee that you will be matched with your first choice. Matches are usually made on a first-come, first-served basis, and mentor availability.

Applicant’s First and Last Name:		
	STRONGER Scholar Mentor Name	Your ranking in order of preference
1.	Dr. Diane Beneventi	
2.	Dr. Jan Blalock	
3.	Dr. Maggie Britton
